Internship/project/research incoming– Students

Information about registration of your Internship in Mobility Online

For TU/e incoming students it is important they have an international experience during their study. To simplify the application process and to make it as clear as possible for you as a student, we use Mobility Online: an online tool to manage the administrative part of your internship/project/research online from the very start until you return and finish the activity.

This manual guides you through the Mobility Online tool used for the registration and application of Internship or projects taking place at the TU/e.

- IMPORTANT: before starting your registration in Mobility Online, you need to carefully read the additional instructions on your department’s digital study guide pages. These instructions contain some departmental specific information that you need in order to correctly complete your Mobility Online application.

General Remarks Workflow

1. All steps will be taken by the (Departmental) Internationalization Officer and by yourself. Hence, from now on, you will need to check and update this workflow on a regular basis. In the workflow you will see:
   i. The steps that need to be taken/ which steps are already completed
   ii. Who has completed the step and the date of completion
   iii. Your name, study and date of birth

2. When a step is completed you will see a green check (see printscreen).

3. When a step still needs action, click on the red button describing the action to take (see the blue arrow)
Examples of steps in Workflow

1. This is an example of a step taken in the Workflow. Once you hit the underlined action in your workflow the following screen will pop up. As you can see there will be a description (what is expected from you), a question and an answer. After you made your choice hit ‘edit’.

2. The screen will refresh itself and will show you when successful “Action Successful!” (see yellow arrow). To go back to your workflow click on ‘Back to workflow’. You will return to your workflow overview.
